**NOTICE OF DRAINAGE PROJECT IN YOUR AREA
LONG CORNER ROAD AT SCOTT BRANCH**

Al R. Roshdieh
Director

May 3, 2016

Dear Resident:

This letter is to inform you of an upcoming major culvert replacement project planned in your area. The project is being managed by the Montgomery County Department of Transportation (MCDOT) and has been coordinated with the Maryland State Highway Administration (MDSHA). The two failing 36 inch storm drain culverts will be replaced by two 48 inch storm drain culverts. These culverts will require the closure of a small section of Long Corner Road, but local traffic will be accommodated. Weather pending, project is expected to take **three (3)** months to complete.

The existing corrugated metal pipes (CMP) culvert has eroded and is in need of replacement. As mentioned, it will be replaced with two larger reinforced concrete pipes which will provide greater strength and durability. Traffic control devices and Variable Message Signs (VMS) will be in place during the construction to assist drivers. Again, the project will necessitate a road closure on Long Corner Road and will utilize a marked detour along Mullinix Mill Road and MD108. Local traffic will continue to have access to the homes located along Long Corner Road.

The culvert replacement project and road closure is scheduled to begin in mid to late May. MCDOT will make every effort to expedite the work to facilitate an accelerated completion with the least amount of inconvenience to nearby residents.

Should you have any questions or comments feel free to contact Mr. Josh Faust, Public Outreach Manager, at 240-777-7642.

We thank you in advance for your cooperation and again we apologize for any inconvenience this project may cause.

Sincerely,

A handwritten signature in blue ink, appearing to read "R. Paugh".

Randy Paugh
